TUBING AND CASING.

W. C. ALLISON & SONS,
Office and Works
32d and Walnut Sts.,
Philadelphia.
TRADE MARK.
BRANCH OFFICE
FERTIG BLOCK,
Titusville, Pa.
MANUFACTURERS OF
LAP WELDED
Tubing & Casing
Both Plain and Galvanized, for Oil and Salt Wells, American Charcoal Iron Boiler Tubes, Lap Welded Tubing for Steam and Water.

SOLE MANUFACTURERS OF
W. C. ALLISON'S
PATENT JOINT
Oil Well Tubing.
This Superior Tubing is furnished with heavy sockets, and is cut with a vanishing screw thread, corresponding exactly with the thread in the socket, so that when screwed up it has a bearing the whole length of the joint; and the absence of a deep thread on the tube at the end of the socket obviates the liability to break at that point from the vibration caused by the action of the pump.
Each length and socket is stamped with our trade mark, and is carefully tested before shipment with a hydraulic pressure of 1,200 pounds to the square inch.
W. C. ALLISON & SONS
Trade Mark.
PASCAL IRON WORKS!
MORRIS,
TASKER & CO.,
Works So. 5th and Tasker sts.,

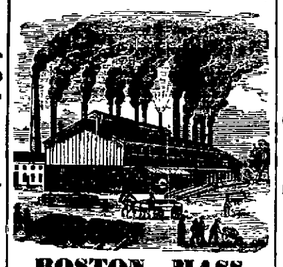
NATIONAL
TUBE WORKS CO.,



BOSTON, MASS.
MANUFACTURERS OF
LAP-WELDED OIL WELL
Tubing & Casing.
We would call the particular attention of dealers and producers to this make of Tubing and Casing. One of the important features in the manufacture of our Tubing is, that the
Lap and the Weld
are made perfectly straight, smooth and uniform, thereby giving equal and great strength to the tubing throughout.
Each joint carefully inspected, reamed at end, and proved with the sockets on at a hydraulic pressure of 1,200 pounds to the square inch before shipment.
Each length stamped with our trade mark,
Diamond "B."

Business Change.
New York Market
The Meat Market heretofore carried on by Messrs. Hoefler & Staples, on the corner of Main and Franklin streets, has been sold to
Wheelock & Meriam,
who will conduct the market in the same first-class manner which has formerly characterized its management. They will keep the best of Meats, and the best only. They respectfully ask a trial.
Messrs. Hoefler & Staples return their thanks for the liberal patronage they have received, and solicit for the new firm a continuance of public favor. sep1tf.

ANOTHER 500 BBL. WELL
On Spring Street.
Having returned from the East and bought a large stock of
BOOTS SHOES & TRUNKS,
I will sell cheaper than the cheapest, so please call and examine my assortment and prices before purchasing elsewhere, then you will see that you can
Save 25 Per Cent.
by getting your Boots, Shoes, Gaiters and Trunks at the Farmers' and Mechanics' Boot and Shoe Store, No. 19 Spring street. I have also in stock the BROADWAY WALKING SHOE, and many other new styles too numerous to mention. Please give me a call, as it is no trouble to show goods.
L. BENHEIM,
Proprietor of the Farmers' and Mechanics Boot and Shoe Store, 19 Spring street.
N. B.—Particular attention given to fine custom work.

DISSOLUTION.
The co-partnership heretofore existing under the firm name of D. HARRIS & CO., at Shamburg, Pa., has this day been dissolved by mutual consent, David and Hiram J. Harris retiring from the firm. The business will be continued and carried on by Mr. A. SIMON, who will collect all accounts. All those indebted to the late firm will please call and settle at an early date. While tendering our thanks to our numerous friends and customers for their patronage in the past, we would respectfully solicit a continuance of the same for our successor.
D. HARRIS & CO.
Shamburg, Sept. 25, 1871.
I would respectfully announce to the residents of Shamburg, Pa., and vicinity, that I shall carry on the late business of D. Harris & Co., and shall be found ready and willing to supply all those desirous of purchasing, with a full line of Dry Goods, Clothing, Boots and Shoes, Gents' Furnishing Goods, &c., &c.
oct31 6t A. SIMON.

A CARD.
PROF. EMIL TELLE
Respectfully announces to his patrons and the public in general, that he has removed his office to the
CONCORDIA HALL,
above St. John's Hotel, where he teaches Piano, Organ and Singing. His method is unsurpassed.
Particular attention will be paid to new beginners by Prof. Telle's assistant, Miss Mary Donahue. Prof. Telle will await his old pupils at the usual hour, at the above named place, after the 1st of November.
Office hours from 9 A. M. to 12 M., and from 2 P. M. to 6 P. M. oct30d6t.

REMOVAL!
The undersigned would respectfully announce to his friends and customers and the public generally that he has rented the store No. 35 West Spring street, lately occupied by Tinker & Co., as a
BOOT AND SHOE STORE,
to which he will remove on April 3d, and where he will henceforth be happy to receive his customers, assuring them that he has greatly enlarged his stock with the newest, meest and best in the
BOOT AND SHOE LINE,
and he will sell at the very lowest prices. Grateful for the very generous patronage bestowed on him in the past, it will be his endeavor to merit and attain it also in the future.
ABRAHAM RINSTEIN.
Titusville, April 1st, 1871.
P. S. The best of custom-work, for which he has so well-established a reputation, will also be done as heretofore.

Thanksgiving Day.

PROCLAMATION OF THE PRESIDENT.

The process of the seasons has again enabled the husbandman to garner the fruits of successful toil. Industry has been generally well rewarded; we are at peace with all nations, and tranquility, with few exceptions, prevails at home. Within the past year we have, in the main, been free from ills which elsewhere have afflicted our kind. If some of us have had calamities, these should be an occasion for sympathy with the sufferers, of resignation on their part to the will of the Most High, and of rejoicing to the many who have been more favored. I therefore recommend that on Thursday, the 30th of November next, the people meet in their respective places of worship, and there make the usual annual acknowledgments to Almighty God for the blessings He has conferred upon them, for their merciful exemption from evils, and invoke His protection and kindness for their less fortunate brethren whom, in His wisdom, He has deemed it best to chastise. In faith whereof, I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the city of Washington, this twenty-eighth day of October, in the year of our Lord one thousand, eight hundred and seventy-one, and of the independence of the United States the ninety-sixth.

U. S. GRANT.

By the President,
HAMILTON FISH, Secretary of State.

PROCLAMATION OF THE GOVERNOR.

His Excellency, the President of the United States, having by his proclamation set apart Thursday, November 30, 1871, as a day of national thanksgiving,

Now, therefore, I, John W. Geary, Governor of Pennsylvania, do hereby cordially commend to the people thereof the observance of the same as a day of thanksgiving to Almighty God for our state, national and individual blessings, and of prayer for the continuance of His gracious favor.

As entirely as may be possible, let business pursuits be suspended. Let us spend the day in religious worship, and in such sacred communings and festivities of the home circle, and so secure its pleasures and perform its duties, as to make our hearts more deeply sensible of our obligations to God and our fellow men. "Whosoever offereth praise glorifieth me." "He that hath pity upon the poor lendeth unto the Lord, and that which he hath given will He pay him again."

Given under my hand and the great seal of the state, at Harrisburg, this twenty-sixth day of October, in the year of our Lord one thousand eight hundred and seventy-one, and of the Commonwealth the ninety-sixth.

By the Governor, JOHN W. GEARY.
F. JORDAN, Sec. of Commonwealth.

South Carolina Ku Klux.

THE APPEARANCE AND STATEMENTS OF THOSE IN CUSTODY IN COLUMBIA.

From the Columbia Phœnix, Oct. 20th.

We yesterday, by permission of Deputy Butts, paid a visit to the Ku Klux confined in the county jail. Nineteen of the prisoners surrendered voluntarily to the marshal. They belong to the small farmer class; none of them are more than thirty years of age, and several are not over eighteen. The faces indicate a low grade of intelligence, but there is not one really bad looking face in the party. In fact, they belong to a type made familiar to Northern soldiers in the squads so often easily captured toward the close of the war. Men who were driven like sheep into the Confederate army, and who, when safely penned up at Point Lookout, were in no hurry to be exchanged. It is doubtful if one of them ever owned a slave, or had an interest in the institution. They are a class whose physical characteristics may be found in any farming district in the North, but whose condition of social subordination is unknown. For generations they have been led by the "gentlemen" of their section, and have never been used to consider political acts from a moral standpoint, or think of a personal responsibility in such matters.

They speak with an astounding simplicity of acts which may send them to the penitentiary for years; they assert that they were forced to join the Klan or be whipped; they hope to see it suppressed, and peace and order secured in their county. They think that they ought not to be severely punished, while the leaders are suffered to escape. They profess a willingness to supply all necessary information to secure the arrest and conviction of the leaders.

One of the party said that he was willing to suffer an imprisonment if afterward he might be allowed to cultivate his farm in quietness, with neither Ku Klux nor soldiers to trouble him. He said, however, that if discharged now he would be afraid to return to Spartanburg, unless protected by the presence of United States troops. In this all who had surrendered concurred. They were sure that if the leaders were caught, convicted and severely sentenced, Ku-Kluxism would be killed off, but that there must not be a conviction of a few unknown and poor men and then stop.

From the interview the impression was gained that the leaders have studiously put forward these dupes to do the work of the Klan, while they have sought to remain in safety. Few of those prisoners ever attended a meeting where the leaders were present. When a raid was determined on ten of them would receive either written or verbal orders to meet and execute the order. If a man was whipped, the executioners knew nothing of his offense. Each of the ten gave the victim a proportionate number of lashes, and not seldom they were lightly laid on by men who had little heart in such proceedings. Generally, however, one of the party was a spy on the rest, and frequently punishment was inflicted upon a lukewarm Klansman.

An English Monarchist—Mr. Ruskin an a Tory.

A London letter to the New York *Times* says:

You may have noticed that the most zealous leaders in social reform in England are tories. Mr. Ruskin, who is giving time, labor and money to the work of making England intelligent, artistic and beautiful forever is a rank tory, as he has just declared in a bit of very racy autobiography. He learned his toryism, he says, from the two authors he chiefly read in his childhood, Scott and Homer, in Pope's translation—the toryism of

"A most sincere love of kings, and dislike of everybody who attempted to disobey them. Only, both by Homer and Scott, I was taught strange ideas about kings, which I find for the present much obsolete; for I perceived that both the author of the *Iliad* and the author of *Waverly* made their kings, or king-loving persons do harder work than anybody else. Tydides or Idomeneus always killed twenty Trojans to other people's one, and Redgauntlet speared more salmon than any of the Solway fishermen, and—which was particularly a subject of admiration to me—I observed that they not only did more, but in proportion to their doings, got less than other people—nay, that the best of them were even ready to govern for nothing, and let their followers divide any quantity of spoil or profit. Of late it has seemed to me that the idea of King has become exactly the contrary of this, and that it has been supposed the duty of superior persons generally to do less, and to get more, than anybody else; so that it was, perhaps, quite as well that in those early days my contemplation of existant kingship was a very distant one, and my childish eyes wholly unacquainted with the splendor of courts."

Traveling with his father and mother in a post-chaise all over England and Wales, and a large part of Scotland, the land of his nativity, in the good old times before railways, and when a merchant spent two or three months a year in visiting his customers and getting orders, he saw all the fine scenery of the country, and also all the finest pictures. His father was a rare judge of paintings, and

"Wherever there was a gallery to be seen, we stopped at the nearest town for the night; and in reverentest manner I thus saw nearly all the noblemen's houses in England; not, indeed, myself at that age caring for the pictures, but much for castles and ruins, feeling more and more, as I grew older, the healthy delight of uncovetous admiration, and perceiving, as soon as I could perceive any political truth at all that it was probably much happier to live in a small house, and have Warwick Castle to be astonished at, than to live in Warwick Castle, and have nothing to be astonished at; but that, at all events, it would not make Brunswick Square in the least more pleasantly habitable to pull Warwick Castle down. And at this day, though I have kind invitations enough to visit America, I could not, even for a couple of months, live in a country so miserable as to have no castles. Nevertheless, having formed my notion of Kinghood chiefly from the Fitz-James of the Lady of the Lake, and of nobleness from the Douglas there and the Douglas in Marmion, a painful wonder soon arose in my child-mind, why the castles should now be always empty. Tantallon was there, but no Archibald of Angus; Stirling, but no Knight of Snowdoun. The galleries and gardens of England were beautiful to see; but his Lordship and her Ladyship were always in town, said the housekeeper and gardeners. Deep yearning took hold of me for a kind of 'Restoration,' which I began slowly to feel that Charles II. had not altogether effected, though I always wore a gilded oak-apple very reverently in my button-hole on the 29th of May. It seemed to me that Charles II's Restoration had been, as compared with the Restoration I wanted, much as that gilded oak-apple to a real apple. As I grew older, the desire for red pippins instead of brown ones, and living kings instead of dead ones, appeared to me rational as well as romantic; and gradually it had become the main purpose of my life to grow pippins, and its chief hope to see kings."

The prospect of seeing any kings of Mr. Ruskin's pattern in England is not a very hopeful one, and the next best thing may be for him to join the Republican associations which are springing up in most of the large towns in England.

Racing in Maryland.

HELMBOLD BEATEN BY HARRY BASSETT IN THE GREAT FOUR MILE HEAT RACE.

Monday was the third day of the race meeting here, and more lovely weather could not have been desired. It was the day also for the grand race of four mile heats between the famous racers Harry Bassett and Helmbold, and with such an attraction no wonder the attendance was immense, fully fifteen thousand people being on the course. The grand stand presented a magnificent array of the beauty and fashion of Baltimore, the display of elegant equipages being especially brilliant. The last race was the great event of the day, being the four mile heat race for the Bowie stakes, between Harry Bassett and Helmbold, which Col. McDaniels' colt won in two heats, in a style which stamps him the greatest racer of his day.

Contest for the Bowie stakes; $250 entrance, $100 for first, with $2,000 added, in which the three-year old colt Harry Bassett was to encounter Helmbold, the victor of Longfellow at Saratoga. There were eight subscribers to this stake—Gov. Bowie, T. M. Hall, Capt. Moore, M. Sanford, A. Belmont, Allen Atchison, Col. McDaniels and W. R. Babcock, but only the horses representing the two last named started. Both horses were in superb condition. In the pools Harry Bassett brought $500 to Helmbold's $200, at which rate a large amount of money was invested. Little Rowe rode Bassett and Hayward piloted Helmbold. The track was heavy, and time bets were made that 7:55 would not be beaten.

First heat—Harry Bassett took the lead from the start, and made the running with Helmbold at his quarters, throughout the first mile in 1:57, Helmbold being at his saddle-girths as they went under the string. The second mile was run in precisely the same manner, except that on the second quarter Bassett opened a gap of two lengths, which Helmbold closed on the third quarter. The two miles were run in 3:55, the favorite leading half a length under the string. The third mile was run in precisely the same manner as the two preceding, Harry Bassett going under a strong pull and galloping perfectly at his ease; time, 5-43 1-4. As the horses entered the fourth mile the enthusiasm become intense and demonstrative. Bassett led half a length, which he increased to a length and a half at the quarter, but Helmbold reduced it to a length on the back-stretch. The latter tried resolutely to get on even terms on the lower stretch, but Bassett still held him at his quarter, and coming up the home-stretch Bassett drew steadily away, and galloped under the string an easy winner by two lengths, and immense cheering.

Second heat—No betting, although one hund

ASSOCIATED PRESS REPORTS.

By the Western Union Line.

New York News.

NEW YORK, Nov. 2.

The Herald special from London says it is certain that Prince Metternich and Chevalier Vigera, Austrian and Italian Ambassadors, will both leave Paris soon and perhaps come to London. The alleged cause is political influence.

Paris is dull just now for the ladies. President Thiers is uncertain of his tenure of life and has made his political will, hoping to secure succession in the Presidency for Cassinier. The Rappel is again published and advocates the claims of Victor Hugo for the Presidency against him.

A Salt Lake letter states that Brigham Young instructed the delegate to propose to Congress the admission of Utah as a State upon the abolition of polygamy, and the suits now pending against the Mormons to be withdrawn.

Judge Davis is reported to have stated to the committees in the western part of the state that he has ample proof that the late Senator Bowen, a Republican in the last session of the legislature, received $10,000 for voting for the tax levy bill, $10,000 for voting for all the ring bills and $5,000 for voting for the city charter bill.

Camaralas' stud of blooded horses was sold at auction yesterday for $25,000.

It is stated that advices from Cuba represent the insurrection there has lately assumed more extended proportions.

There is now very little doubt of Garibaldi's escape to Europe under the name of Donald, which was his wife's maiden name.

Deputy Controller Green refuses to pay the city judges, and Judge Bedford intends having a mandamus issued compelling him to pay them. Several court officers who were dismissed by Green have been reappointed by the judge.

Two and a half millions interest on the city debt was paid yesterday.

At a meeting of the bar association last evening a resolution was adopted that the nomination of Ledwith for the Supreme Court Judgeship does not deserve the support of the legal profession nor the people. The association also resolved to supply their legal brethren of Chicago with a full set of law reports.

There are some doubts as to whether the Alexis is coming here at all. The Russian Admiral is bound on a general voyage of observation, and has full authority to sail where he likes. His going from England to Madrid shows that it is not his purpose to visit us at present.

The Tribune says yesterday was set down for the return of Ingersoll, but that gentleman broke the pledge made for him by his friends, by failing to appear. His return is evidently postponed without fixed day. Nothing has been heard of Woodward.

The Tribune's London letter says nothing could be a better proof of the English interest in Chicago than the extraordinary efforts of the London press to get early and full accounts. A sharp lookout was kept for the Java at Queenstown bringing New York papers of the 11th. Newspaper reporters went off in a steam tug and caught her some distance out at sea to get the papers, and this morning we have from three to six columns in each of the leading journals. Among the large subscriptions, I note the bank of England and union bank of London each gave $5,000

The new alliance between the peers and working men has fallen into disorder. Lord Salisbury, Lord Derby and others have severally denied all complicity in the business. Some of them had never heard of it till they read the newspaper accounts.

Ernest Kopf, convicted of counterfeiting, was to-day remanded for sentence. James Quimby, who pleaded guilty, was also remanded for sentence.

A mandamus order was granted by Judge Barnard to-day for the Bureau of Elections to show cause why the election of assistant aldermen should not take place. There have been doubts on the question, and to-day the Committee of Seventy caused a test case to be made with view of having the issue settled. The order is returnable to-morrow.

Roosevelt Hospital, Fifty-eighth street, was opened to-day. It is the gift of Jas. H. Roosevelt, and has already cost more than a million dollars.

At a meeting of the Chamber of Commerce this afternoon, George Opdyke, Wm. E. Dodge, J. Stranahan, and S. B. Chittenden were chosen delegates to the meeting of the National Board of Trade. A committee report was received declaring it inexpedient to approve applying to Congress for subsidies for a line of steamers to Australia, which was discussed at length. A resolution was adopted causing inquiry to be made whether any of the Chamber are concerned in the city frauds, and if so to report what action will be necessary.

The Republicans are strongly urging the election of ex-Governor Seymour for the Assembly in the Nineteenth District.

The Board of Education of Brooklyn held an informal meeting to-day in reference to the slanders upon school teachers yesterday appearing in a Brooklyn paper. Some members presented a paper for signature by school teachers refuting the slanders, but without taking any action the board adjourned. It is hinted in the paper for the teachers to sign that the slander inspired the attack.

Trouble in the Long Island Sugar Refining Company was occasioned by the secretary making false statements of accounts. The secretary has disappeared, and there is no clue to his whereabouts. In a day or two the stockholders will determine whether the company be forced to suspend.

There will be a large number of business men of the city at the polls all day election day. The anti-Tammany parties are preparing to defeat the scheme of the repeaters.

The case of Captain Chenny, of the police, is to be investigated by the grand jury. The captain and other policemen are said to have interfered with registration, and clubbed away many citizens who attempted to get into the office of the Register on Tuesday.

At a meeting of the Board of Supervisors, to-day, Mayor Hall submitted a resolution, which was adopted, dividing the city into fifteen election districts, and designating certain Tammany officials to receive certain election returns. This action is thought to be in the interest of Tammany in some assembly districts.

It transpires that policemen have been assessed for election expenses in the First Assembly District. The assessment was ordered by President Henry Smith, of the Police Commissioner, in the name of the Union Republican Association. The times designates Smith as a Tammany Republican.

There is no account of the missing Ingersoll.

The non-arrival of the Grand Duke Alexis keeps the Reception Committee in ferment. If the Duke arrives this week, the military reception which was proposed will be deferred, as the law prohibits any military parades in the city five days preceding elections.

Messrs. Archibald Baxter, Samuel D. Babcock, Charles G. Franklyn, William Tinoin, G. F. Phim and Thomas E. Jevens, of this city, have, by a resolution of the Liverpool Chicago Relief Committee, been requested to act as a committee in New York, for the purpose of distributing the Liverpool fund for the relief of the sufferers in Chicago, and have been authorized to draw at sight $50,000 to be distributed as they may think proper.

The sureties on Fisk's bond in the Mansfield suit were not satisfactory to the plaintiff, and they will therefore be excepted to accordingly. Their names are B. W. Blanchard, railroad agent, and Charles Robinson, harness dealer, of Fishkill.

Mayor Kalbfleisch has sent a letter to the Brooklyn Board of Education, denying all knowledge of the article reflecting upon the female teachers. There is a general opinion that the board will prevent letting the mothers and brothers of the young ladies take suitable action for the punishment of the author of the slander.

The Union League Club this evening unanimously resolved to attend at the polls election day to preserve order and secure fair voting.

The Superintendent of the New York State Insurance Department, who is making a careful official examination of the New York city companies, to-day certifies that the International Companies assets of one million and a half are securely invested and its capital of half a million, after providing for all liabilities, including the Chicago fire and reinsurance, is wholly unimpaired.

Cooper Institute was filled to-night with citizens at the call of the Committee of Seventy to ratify the reform ticket. Henry G. Stebbins presided, and after detailing the corrupt practices by which the Tammany ring robbed the city of $20,000,000, introduced James H. Grant, who announced that Hon. Thomas E Stewart had retired from the contest in the Fifth Senatorial district in favor of Erastus Benedict, and Wm. Hall had resigned in favor of Daniel Tiemann in the Eighth. All anti-Tammany organizations, he said, had now combined on candidates, and by united action they would surely elect a goodly number of them. Hon. Samuel J. Tilden and Wm. Evrats followed in eloquent addresses denouncing the Ring frauds and called upon all citizens to give up all business on election day and make a united effort to rid the city of the gang of robbers who have so long plundered the city Treasury. On motion of Stebbins the reform ticket was adopted by acclamation. Telegrams were read from Hon. Horatio Seymour and Hon. Francis Kernan expressing regret at being unable to attend.

The Kings county Democracy held a grand mass meeting to-night, at the Brooklyn Academy of Music. The building was crowded. The chair was occupied by Hon. Demas Barnes. The state, county and city nominees were enthusiastically endorsed.

Washington News.

WASHINGTON, Nov. 2

The Civil Service Commission to-day was in session on the subject of postmasters. The difficulty is to fix a point where competive examinations shall commence, as of 30,000 postmasters 22 000 receive salaries of less than $100 a year. It is thought this class should not submit to examinations as a greater number of the offices are held merely for neighborhood accommodation, not profit.

The President has appointed Charles C. Beaman, jr, examiner of claims independent of State.

Mase Adams has been appointed as agent of the Sisseton Wahpton bands of Sioux Indians, Dakota.

Returns to November 1st, show that 25 grain and 15 molasses distillers in operation produced 241,112 gallons of spirits daily, being an increase of 29 distilleries over the month of October, and an increase of 57,140 gallons of spirits daily. Of the distilleries now in operation Illinois has 42, Indiana 21, Kentucky 16, New York 11, Ohio 39, and Pennsylvania 29.

The telegram from Russia denying that Minister Catacazy will not be recalled after the visit of the Grand Duke, has attracted attention in different circles. There is authority for the statement that Catacazy has been told that after the visit of the Grand Duke he will not be received as minister here, and that if he does not leave his passports will be sent to him.

The president of the Seneca Sand Stone Company denies that President Grant requests him to sell his stock in the company, and says that in 1867 the President invested $10,000 for the benefit of his family.

The Controller of the Currency has authorized the Merchants' National Bank of Toledo to commence business with a capital of $300,000.

The War Department again declines to assort Indian Superintendent Viall, on the ground of insufficiency of troops.

Chicago News.

ST. LOUIS, Nov. 2.

The Republican has a special from Springfield which says: Gov. Palmer has sent an official letter to Attorney General Bushnell directing him to take steps to procure the indictment of Gen. Sheridan, Col. Thomas J. Sherman and other persons engaged in the killing of City Prosecuting Attorney Grosvenor, and other unlawful acts during the military occupation of Chicago.

The report that part of the Eighth United States Infantry has been ordered to Chicago for duty is not credited in Springfield, as Gov. Palmer has made no requisition on the Secretary of War for troops, and it is not believed they would be sent except upon his request.

CHICAGO, Nov. 2

In explanation of the statements contained in a dispatch to the morning papers from Springfield that the War Department had ordered four companies of United States regulars to this city, it is proper to state that the companies are ordered to the barracks here for winter as headquarters of the Army of the Missouri, the same as companies stationed at other Government barracks throughout the country, and has no reference whatever to any local use for these soldiers.

In reference to the rumor that Gov. Palmer had authorized or ordered Attorney-General Bushnell to procure the indictments of Gen. Sheridan, Col. Sherman and others for the murder of Col. Grosvenor, it is only necessary to say that neither the Governor nor Attorney General have any legal authority to do anything of the kind.

Hon. Elliott Anthony, who was yesterday nominated for Judge of the Superior Court by the Union Conference No. 2, has declined the nomination.

Railroad Excursionists.

ST. LOUIS, Nov. 2.

The railroad excursion party from Evansville, Ind., arrived at Mt. Vernon, Ill., at about 2 o'clock to-day, where they were met by a reception committee from St. Louis. An elegant spread was set at this place by the Southeastern Company, at which speeches were made by G. B. Dane and Leers Shryock, of St. Louis, and Professor A. M. Gow, of Evansville, and General Hovey, of Mount Vernon. The party left for St. Louis at 4 and arrived here at 7:30 p. m., and were taken to various hotels as the guests of the Chamber of Commerce. To-morrow morning they will be shown all places of note in and around the city and most of them will leave for home in the afternoon. The party numbers about 350 and is composed of merchants, bankers and representative men of Evansville and various places along the route.

Iron Ship Building.

The merchants on 'change to-day unanimously adopted a resolution endorsing a proposition of the International Steamship Company to the government to establish iron ship building yards on eastern waters, and urging upon Senators and Representatives of the west and south to unite in securing the establishment of similar works at some central point on western waters for the construction of iron steamboats and barges.

Fire.

A fire broke out about 11 o'clock to-night in the auction-house of D. N. Burgoyne, 121 North Main street, and extended to the fancy goods and notion store of A. Judell & Co, on the South. The upper story and roof of both stores were badly burned, and the stocks in the lower stories pretty well drenched with water. The loss can not be ascertained to-night.

Memphis.

MEMPHIS Nov 2

At the meetings which are now being held nightly by the Republicans a strong feeling is growing up against the administration, on account of removals of Hodges, Brooks and Patton.

The Grand Chapter of the State convened this morning. Rev. George A. Donnelly was elected Grand High Priest for the ensuing year, and L. E Barber Grand Secretary.

A forger calling himself J. H. Comstock, recently here bought and paid for a $3,000 draft on the Louisiana National Bank, New Orleans, and obtained a letter of identification there. He will probably turn up in some other city. The letter was obtained on a forged letter on Nashville.

Change of Name.

LOUISVILLE, Ky., Nov. 2.

The City Council to-night ordered to be printed and made the special order for the next meeting, November 16th, the proposition to change the name and direction of the Cumberland and Ohio railroad, and make it the Louisville road, on condition that the city subscribe $12,000 to the enterprise. The proposition seems to meet general favor, and will probably be submitted to a vote of the people.

Damaged by Fire.

NORWICH, Ct., Nov. 2.

Sprague's cotton mill, at Baltic, was damaged by fire to-day.

Foreign News.

LONDON, Nov. 2.

A compromise has been arrived at between the French and English Governments in regard to the commercial treaty. The notice of abrogation given by France has been withdrawn, and the treaty will be continued in force, but with material modifications, details of which have already been agreed upon.

BERLIN, Nov. 2.

The workingmen committee of this city has summoned a congress of workmen to meet here on the 19th inst. The object of the meeting is to organize a general strike for a reduction of the daily term of labor to nine hours, and for a general increase in wages.

Subscriptions to the Chicago relief fund received at the Bourse to-day, amount to 20,500 thalers.

Toledo.

TOLEDO, Nov. 2.

The Commercial of this morning contains an editorial upon the past, present and prospective advantages of Toledo. It shows that the city has tributaries to it of seven lines, embracing 2,040 miles of railway; that four new lines of 486 miles are now under construction, and that three new lines are projected and to be built, with another, the Toledo & St. Louis Air Line, in reasonable prospect, making an aggregate of 3,096 miles. The extent of those to be opened next spring to reach the great coal and iron mines of central Ohio, and with the facilities now assured, Toledo will have eleven distinct connections with the seaboard, two at Boston, four at New York, one at Philadelphia, two at Baltimore, and one at Norfolk, Virginia, besides competing lines to Cincinnati, Chicago, St. Louis, Detroit, Northern Michigan and Canada. These facts are regarded as highly promising for Toledo's future. To-morrow morning's Commercial will contain a statement of three new branches of the Toledo, Wabash and Western railroad, the Decatur and Pekin, sixty-seven miles; the Hannibal and Moberly, seventy miles; the Lafayette and Bloomington, 138 miles. These with four other branches and the Trunk line give an aggregate of 937 miles of road through the garden of the West, and constituting one of the largest and most valuable railway systems in the country.

Interesting Suit.

TRENTON, N. J, Nov. 2.

The examination of witnesses in the case of Thompson against the Gorman Valley Railroad was continued to-day. Librarian Dully, and Brown, secretary to the governor, were examined as to the bill. Further hearing was adjourned till Saturday, to Jersey City. It appears the bill will be made a law on the ground that it was in the governor's hands five days before adjournment of the legislature. Very large interests are involved, as the bill gives the right to run a railroad across the state with extraordinary privileges.

Democratic Meeting.

BALTIMORE, Nov. 2

A mass meeting of the Democratic Conservative party of this city was held to-night in Monument Square, to protest against the proceedings of South Carolina under suspension of the writ of habeas corpus. The clubs of the various wards paraded, and Reverdy Johnson presided. Several resolutions were adopted. Addresses were delivered by Mr. Johnson, Pinkney White, Joshua Vangandt, the Mayor and others. The number present is estimated at from 8,000 to 10,000.

Weather Report.

WASHINGTON, Nov. 2.

Probabilities—The barometer will probably rise slightly, with light winds and pleasant weather in the South and Middle States Friday, northwest winds and partially cloudy weather in New England and Northern New York, fresh northwest winds on Lake Ontario, southerly winds on Lakes Michigan and Superior, and northerly winds and clearing weather on the Gulf Coast. Dangerous winds are not anticipated.

Married.

FORT WAYNE, Ind., Nov. 2.

Miss Julia Ward, daughter of an old pioneer citizen of this city, was married to Thomas P. Weaver to-night. Upwards of one thousand cards were issued. The ceremony took place in the rink, which was crowded, and great numbers were unable to obtain admittance. It is conceded to be the most recherche affair ever occurring in the city.

The Maid and Lucy.

PHILADELPHIA, Nov. 2.

Goldsmith Maid beat Lucy three straight heats, in 2:22¼, 2:18¾, and 2:18¼.

The jury in the case of Lazarus failed to agree, and were discharged. They stood eleven for conviction and one for acquittal. Lazarus will have a new trial on Monday.

Republican Nomination.

PEORIA, Ill., Nov. 2.

The Republican city convention to-night nominated P. R. Brotherson for Mayor, and a full city ticket. The Democracy here are greatly divided, and the prospect of a Republican success is unusually good.

Fatal Accident.

SAN FRANCISCO, Nov. 2.

The front of the Mechanics' Fair Pavillion, which is being demolished, fell this afternoon, killing a spectator, Pat Corry, and mortally injuring Assistant Foreman D'Manwell.

Indicted.

CINCINNATI, Nov. 2.

The United States Grand Jury have indicted Benjamin F. Davidson, army contractor, for making and presenting fraudulent vouchers of forage, amounting to $70,000.

Sale of Iron Works.

HARTFORD, Ct., Nov. 2.

The Woodruff and Beach Iron Works were bid in at the sale ordered by the receiver, by General Franklin for the successors of the firm, at $113 950.

Yellow Fever.

CHARLESTON, S. C., Nov. 2.

Five deaths from yellow fever during the past twenty-four hours.

Died.

PORTSMOUTH, N. H., Nov. 2.

The widow of Admiral Pearson died to-day.

SPECIAL NOTICES.

Sinking Fast.—Pale, miserable, without relish for food, without energy enough for exertion, yet with no acute pain, or other specific initial action of disease, how often do we see feeble invalids fading as it were out of life without any apparent cause. We say of them that they are "sinking fast," or "sinking gradually," as the case may be. But there is no good reason why they should sink at all. Persons in this dead-alive state want invigorating and vitalizing. Nature, in a state of torpor, demands help. Bring out the reserve of vitality in the system, brace the nerves; tone the stomach, break up the morbid trance of body and mind with a course of Hostetter's Stomach Bitters. It has done in thousands of instances. The effect upon the enervated frame is electric. Never give up, however languid and broken down. Remember that for the exhausted, the debilitated, the despondent, this powerful vegetable restorative is a genuine elixir. It is not a mere stimulant that provokes a transient flush of vigor in the system, and then leaves it in a more depressed condition than before. It removes the cause of debility by altering the secretions, and regulating the action of the internal organs, as well as invigorating them. It is a particularly valuable medicine at this season because it is an antidote to the malaria which produces intermittent fever, bilious colic and other disorders of the bowels prevalent in the fall.

Office Penn Transportation Co.

On and after this date Oils will be received for transportation as follows: Oil under 48 gravity, two per cent.; 48 gravity, and not exceeding 49, three per cent.; oil exceeding 49 gravity will be rejected. Gravity test of oil to be from the top of the oil.

W. H. ABBOTT, Secretary.
aug29-tf

S. M. Pettengill & Co., 37 Park Row, New York, and Geo. P. Rowell & Co., Advertising Agents, are the sole agents for the Titusville MORNING HERALD and the Titusville WEEKLY HERALD in that city, and Coe, Wetherill & Co., in Philadelphia. Advertisers in those cities are requested to leave their favors with either of the above houses.

SPECIAL NOTICES.

Titusville Pipe Company Notice.—On and after date oil will be received for transportation only, under the following scale of allowances; On oils under 48 degree gravity 2 per cent; on oils of 48 degree and not over 49 degree gravity, 3 per cent. No oils over 49 degrees gravity will be received. All gravity test to be made from the top of oil.

CHAS. P. HATCH, Superintendent.
Titusville, August 29. d-tf

The Pennsylvania Transportation Company having succeeded to the business of the Allegheny Transportation Company, and the Commonwealth Oil and Pipe Company, all orders for oil should hereafter be made upon the Pennsylvania Transportation Company, who will make good any of the accepted orders of either the Allegheny Transportation Company or the Commonwealth Oil and Pipe Company.

HENRY HARLEY, President.
aug3dtf

PETROLEUM MARKETS.

OFFICE OF THE MORNING HERALD, TITUSVILLE, Nov. 2, 1871—9 P. M.

The petroleum market was inactive to-day and prices a shade weaker, though sellers were scarce at prices offered.

Upon the Lower Creek $4.42½@4.45 was bid, with sellers at $4.50@4.55. At Oil City $4.65@4.70 were the ruling figures.

Upon the Upper Creek $4.25 was bid for P. T. and T. P. oils with sellers at $4.30. There was more demand in all quarters for regular delivery than spot oil

We quote the following sales:

	UPPER CREEK.		
1000 bbls	P. T. Co.	spot	$4.32½

Liverpool.

LIVERPOOL, Nov. 2—11 a. m.

Petroleum—Refined, 17d; Spirits, 10@10½d.

Cleveland

CLEVELAND, Nov. 2.

Petroleum—Market steady, car lots, 22@22½c; small lots, 23@23½c; crude quiet at $5.10@5 60.

FINANCIAL AND COMMERCIAL.

Money and Stock Market.

NEW YORK, Nov. 2.

Gold is steady at 112¼; it sold during the day at 112 and closed at 112¼.

Loans were made at ⅞ per cent for use and 5@7 per cent for carrying.

The daily clearings of the Gold Exchange Bank were $79,711,000

There were twenty-seven bids to-day at from 110 23-100 to 112 13-100. Total amount of bids, $5,035,000. The amount advertised, $1,000,000, will go at from 111 96-100 to 112 13-100.

Governments opened steady about the same as last night, with a slight advance in prices, but a little lower at the close.

Stocks opened steady and became stronger on second call, New York Central, Lake Shore, and Western Union being very strong. The market was weak at the close, with a slight decline on the advance in Pittsburgh stock, owing to the fact that the road had been leased to the Pennsylvania Central. The terms in effect give the stockholders of Pittsburgh scrip a dividend of 43 per cent. The lease is for 999 years, from December 1st 1871.

Money easy at 6@7 per cent

State bonds dull South Carolina for July very weak, and nothing doing in any third class.

7-30 GOLD LOAN

OF THE

Northern Pacific Railroad.

Rapid Progress of the Work.

The building of the Northern Pacific Railroad, begun July last, is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific coast. The grade is nearly completed 200 miles westward from Lake Superior; trains are running over 130 miles of finished road, and tracklaying is rapidly progressing toward the eastern border of Dakota. Including the purchase of the St. Paul & Pacific, the Northern Pacific Company now has 413 miles of completed road, and by September next this will be increased to at least 560.

A GOOD INVESTMENT.—Jay Cooke & Co. are now selling, and unhesitatingly recommend, as a profitable and perfectly safe investment, the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three-tenths per cent. gold interest, more than 8 per cent. currency) and are secured by the first and only mortgage on the entire road and its equipments, and also, as fast as the road is completed, on

20 000 ACRES OF LAND to every mile of track, or 1,600 acres for every $1,000 Bond. They are exempt from U. S. Tax; Principal and Interest are payable in Gold; Denominations: coupons, $100 to $1,000; Registered, $100 to $10,000.

LANDS FOR BONDS.—Northern Pacific 7-30s are at all times receivable at ten per cent. above par, in exchange for the Company's Lands, at their lowest cash price. This renders them practically Interest Bearing Land Warrants.

SINKING FUND. The proceeds of all sales of lands are required to be devoted to the re-purchase and cancellation of the First Mortgage Bonds of the Company. The Land Grant of the road exceeds Fifty Million Acres. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment, accordingly, to the people, which is more profitable or safe.

EXCHANGING U. S. FIVE-TWENTIES.—The success of the New Government 6 per cent Loan will compel the early surrender of United States 6 per cents. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increase their yearly income.

OTHER SECURITIES.—All marketable Stocks and Bonds will be received at their highest current price in exchange for Northern Pacific Seven-Thirties. Express charges on Money or Bonds received, and on Seven-Thirties sent in return, will be paid by the Financial Agents. Full information, maps, pamphlets, etc., can be obtained on application at any agency, or from the undersigned.

A MAN RUN OVER BY THE CARS AT MILLER FARM—PROBABLY FATAL TERMINATION.—Mr. H. C. Chapman, superintendent of the Clairmont farm, Petroleum Centre, met with a terrible accident yesterday morning, by which he lost both of his legs. It appears that he was endeavoring to jump on the 9:30 up train at Miller Farm, when his foot slipped, and he fell across the rails, the wheels of the caboose passing over both legs and almost severing them from his body. He was immediately taken care of by the passengers on the train and the employees of the road, who bound up his legs so as to stay the flow of blood. In this condition he was brought to the Harding House, opposite the passenger depot, in this city. Drs. Barr, Varian, Dunn, Elliott, and Dr. Greeley, of Union, were summoned, and after holding a consultation they concluded that the only hope was to amputate both legs below the knee. The operation was performed as speedily and skillfully as possible, all of the physicians in attendance lending their personal aid. Chloroform was administered during the most painful part of the operation, although the sufferer was only partially put under its influence. His wife arrived from Petroleum Centre on the noon train, and will remain with him at the Harding House, as his condition is too critical to admit of his being removed. He is a man of powerful constitution and although his recovery is doubtful, still his immense physical strength may enable him to overcome the shock to his system.

DIED FROM HIS INJURIES.—John McMullen, who it will be remembered was accidentally injured by lighting a match in a benzine tank, some five weeks ago, died yesterday morning from inflamation of the lungs, superinduced by inhaling the flame. Dr. Oakes, the attending physician, states that no pauper patient ever received better care or attention than this unfortunate man did at the hands of Mrs. Burdick, to whose house he was carried after the accident. The nature of his burns, were so offensive and wants so frequent, that no one could be hired to attend him, excepting at a very extravagant price, and consequently that kind-hearted lady felt compelled to give him her personal and unremitting attention. He had neither friends nor relations in this part of the country. Dr. Oakes further informs us that if he had lived, he never could have recovered from the effects of his burns sufficiently to have enabled him to provide for himself, owing to the contraction of his muscles, and the flexions of the arms and hands. The funeral of the deceased will take place to-day.

THE regular monthly meeting of the Ladies Home Relief Association, will be held at the Lecture room of the Presbyterian church this afternoon at 3 o'clock.

THE Universalist fair and festival concluded last evening. It was a very successful entertainment in every respect, the attendance last evening being even greater than that of the first evening. The ladies exerted themselves to furnish a delightful festival and succeeded admirably. We have not space to detail the attractions offered, but all present will cherish pleasant recollections of the social reunion of the society and congregation. The total receipts of the fair amount to $950.

PETROLEUM AS FUEL.—The communication on this subject which we present to-day, is from the pen of Captain Henry E Wrigley, a gentleman who has given great attention to the practical investigation of the subject, and whose views are entitled to careful consideration. We commend the article to the perusal of all interested in the experiments for successfully adopting petroleum to fuel purposes, upon an economical basis.

SOLDIERS' ORPHANS.—Captain Spicer, the military instructor of the Soldiers' Orphan school of this city, left last night for a visit to Cassville, Pa, to attend the commencement exercises of the Soldiers' Orphans' school at that place, with which he was formerly connected. He will be accompanied by two delegates from the Titusville school. The lads are dressed in the neat gray uniform of the school, which was cut and fitted entirely by the Captain. The cutting and fitting of uniforms for the boys is something new to the Captain, but he has undertaken it in order to save to the school a large amount of money formerly expended for that purpose. The uniforms, which we have seen, look neat, and are well fitted.

CHARITY FROM HYDETOWN AND THE SURROUNDING TOWNS.—A car load of provisions and vegetables was shipped yesterday for the relief of the Wisconsin and Michigan sufferers, directed to the care of the Milwaukee Relief Association.

AN important case of mal-practice is to come off in the court of common pleas, Venango county, next week, J. W. Bowman against R. & J. R. Crawford. The plaintiff claims his injury was a dislocation of the carpal bones of the wrist, and these defendants treated it as a fracture of the radius. Taylor, Mackey and Heydrick counsel for plaintiff, and Snowden and Dodd for defendants

PERSONAL.—Samuel Ames, Esq, is the Republican candidate for the State Senate in the Warren and Essex district, New York. Mr. Ames is a lawyer by profession, and a brother of F. W. and C. H. Ames, of this city.

POLICE MATTERS.—James Garnel, Pat Donahue, James O Donnel, and James Sweeney, were arraigned before 'Squire Perry yesterday afternoon, on the charge of creating a disturbance at a bagnio on Spruce street, last Wednesday night. James Sweeney was fined $10 and costs, and the other three $20 and costs. They were immediately rearrested, on a charge of riot, preferred against them by Chief of Police Rouse. The hearing on this latter charge will take place to-day.

ACKNOWLEDGMENTS.—The trustees of the A. M. E Church desire to acknowledge the presentation from Mr. W. W. Kingsland, of a four-burner chandelier, for which he has the thanks of the congregation.

Wrigley & Gray, Civil Engineers and Surveyors, Architects, Solicitors of Patents, Etc.

NEW AND VALUABLE MAPS OF THE OIL REGION ON A LARGER SCALE THAN EVER BEFORE ATTEMPTED.

Messrs. Wrigley & Gray, the well known Civil Engineers and Surveyors, Architects and Solicitors of Patents, have within a few days removed to their new office building on Pine street, east of Abbott House. Their new quarters are very pleasant and commodious, and just enough remote from the din of the street, to suit the still studies and tranquil operations of their profession while engaged in office work. The front lower room of the building is exclusively used by the draughtsmen, and constructed and arranged for securing the steadiest and largest light and facilities for work. The real estate and record office is in the middle part, the shops and other offices in the rear, the consulting room and parlor above. The firm prepare plans and specifications for buildings of all kinds, and have had a good deal of experience in this line. They also attend to patents, as solicitors, a department of growing importance and extent in the oil region, in the way of oil well and refining apparatus. As engineers and surveyors it is hardly necessary to speak of gentlemen so well known, and of seven years experience in this city, and enjoying an extensive practice in the location of lands, pipe lines, or lines in question. But we desire particularly to call attention to a great work upon which Messrs. Wrigley & Gray have been assiduously engaged for the past three years, which is now completed, and will be shortly presented to the public. It embraces a series of three maps. First a general map of the oil regions, from Corry to Pittsburgh, covering over three thousand square miles, and explained, illustrated and amplified by two other maps, on a larger scale, showing each farm of the producing territory of the entire region, together with all the details of actual producing spots, pipe and railroad lines, and other shipping facilities. We observe one peculiarity in the construction of these maps, to-wit: That they are divided into blocks of equal size, containing respectively 36, 40 and 54 blocks, each of which is separately photographed, and the blocks of each map bound together. The rapid changes in territory and lines, constantly going on, can thus be readily followed from time to time, and exhibited on fresh plates, executed as often as now changes or additions in territory or lines make it necessary or advisable. These maps are not for the many, but the few oil operators or companies, whose business is of such magnitude as to require them for reference, or who desire to trace the course of oil development from this vantage-ground. These maps, as can be seen from the most cursory inspection, represent an amount of time, labor and expense, in their preparation, which it is difficult to appreciate. In this connection, it deserves to be mentioned that Messrs. Wrigley & Gray have accumulated by purchase, and from their very extensive practice, the largest collection of land records in this section, making their office as reliable a source of information on these points, in many respects, as the Recorder's office in the respective counties.

Proceedings of School Board.

TITUSVILLE, Nov. 1.

Present—Messrs. Carter, Berry, Phelps, Suhr, Smith and Henderson.

Absent—Messrs. Minor and Fowler.

Minutes of last regular meeting were read and approved.

Upon the recommendation of the Committee on Finance the board unanimously voted to petition the Court of Common Pleas to authorize the issue of bonds to the amount of $10,000 for the purpose of taking up bonds now due, and to pay for lots lately purchased for building purposes.

On motion of Mr. Phelps the contract for building the cases for the geological cabinet, to be placed in the Second ward building, was awarded to John Hill at the price of $400, he being the lowest bidder.

On motion the President and Secretary were instructed to have the school property insured to the following amounts, viz: In the First ward, $25,000, in the Second ward, $20,000; in the Fourth ward, $1,200.

On motion of Mr. Berry it was resolved that Mr. McCambridge be employed to canvass that part of the city lying west of Monroe street, to ascertain the number of children over six and not over fifteen years of age, and not attending any school, and to report at the next meeting.

On motion adjourned.

W. M HENDERSON, Secretary.

THE WALLACE SISTERS.—A large and appreciative audience greeted the Wallace Sisters last night on the occasion of their first appearance. The first act of the evening was a double song and dance by Minnie and Maud Wallace, and their endeavors were crowned with an encore. The farce of "Your Life's in Danger" followed, in which the strength and talent of the stock company were brought forward, and during the performance of which the audience was kept in high spirits by the awkward and laughable situations of the plot. Minnie and Maud Wallace and Miss Esta then gave a triple clog dance, which, we can truly affirm, was the best female clog dancing we have ever witnessed. Mr Charles E. Dobson afterwards favored the audience with some delightful music on the banjo. Mr. Dobson is termed the Gottschalk of the banjo, and deservedly so, for there is probably no man living who can draw such beautiful music from that homely instrument. The burlesque of "Cinderella" closed the evening's entertainment. In this piece Mr. George K. Fortesque made his first appearance. Mr. Fortesque is a man of Herculean statue, finely formed, and we might even add, a handsome man. Combined with all this he is a good actor, and as he appears in "Cinderella," in the character of "Clorinda," makes a most laughable specimen of the burlesque female. Jennie Wallace appeared as "Dandina" in the burlesque, and by her handsome face and figure and charming acting acting made more than one stern heart palpitate with accelerated motion. The bill for to-night is a good one and embraces the comedy of "The Factory Girl," and the farce of "Country Cousins." Minnie and Maud will also appear in new acts and dances, and Mr. Charles Dobson will again show what he knows about manipulating the banjo. Reserved seats can be secured at the box-office from 2 to 5 P. M.

CHILD RUN OVER BY A MILK WAGON. A little boy, five years of age, son of Mr. Bryan, residing on Martin street, near the corner of Water street, was yesterday run over by a milk wagon, lacerating the flesh over the left eye. Dr. Dunnigan was sent for and dressed the wound, which is not considered of a dangerous character.

Why Petroleum is not Used as Fuel.

Editors Morning Herald:

The proposition to burn petroleum as a fuel, is one which has so long and persistently held general attention that some practical result might by this time be naturally expected.

Numerous contrivances for doing so have been brought before the public, and we see frequently, from time to time, in the public journals, accounts of its successful application for heating purposes as a competitor with coal.

With all the advantages claimed, however, there has not been any general adoption of the new fuel, and with many intelligent persons who have seen its operation it has occasioned no little surprise that a process apparently so simple and effectual should meet at once with general approval.

The real fact of the case, nevertheless, however sorrowfully we may approach it, stands out clearly in the results of the experiments heretofore made.

It will not pay to burn petroleum as fuel. Crude oil has never yet been cheap enough to burn it with profit anywhere else than at the well.

The point upon which the whole matter turns, is of course the elimination of the relative evaporating powers of equal weights of coal and oil.

The writer, some years since, being interested in the production of a patent for burning petroleum, collected from many sources statistics of its operation, which enabled him to form an estimate of its value as compared with coal.

Meeting, however, with a report of Alban C. Stimers, Chief Engineer United States Navy, on the experiments made in New York, with Colonel Foote's apparatus, and finding it (although favorable to the invention) very thorough, and in results almost identical with his own statistics, he believes that the conclusions of Mr. Stimers will be found faithful and accurate, and that no future experiments can seriously affect them.

The result of Mr. Stimers' experiment may be summed up as follows:

One pound of anthracite coal will evaporate at atmospheric pressure from a temperature of 212° 10·005 lbs of water.

One pound of petroleum 46 gravity will evaporate at atmospheric pressure from a temperature of 212° 23·74 lbs. of water.

Or one pound of petroleum will, under the same circumstances, evaporate 2 35-100 times as much water as one pound of anthracite coal.

Now as to the relative cost of the two fuels—

One barrel of petroleum, 46 gravity, containing 43 gallons, will weigh, exclusive of package, 287 lbs.

If oil were only $2 87 per barrel, it would make the price of crude per pound one cent.

Two thousand pounds coal at $5.00 per ton would make the price of coal per lb. one-fourth cent.

Making the cost of petroleum over coal $4 00

Evaporating power of petroleum in comparison with coal, $2 35.

Leaving a difference in favor of coal, with oil at $2 87 per barrel, of $1 65.

As the cost of crude is now nearly double the rate mentioned, the difference is much greater at present.

For a general result, it may be convenient to remember that it will be about an even thing in point of economy, to burn oil at $3 00 per barrel when coal is $10 00 per ton.

No difference is noted here between anthracite and bituminous coal, the evaporating power of the latter being about 93

It is a common error in relation to this matter, to suppose that the amount of heat to be obtained from a certain quantity of oil, is indefinite, and that although by a very simple process perfect combustion may be secured, that the heating power may be still greatly increased by some ingenious but complicated addition to the apparatus.

A simple burner consisting of a pan, steam jet and covers, properly arranged, will secure a perfect combustion of the oil.

When this perfect combustion is accomplished, by any process, however simple, and no carbon and smoke is seen to escape from the stack, we have all the heat that can be produced from the oil.

There is one point that in the construction of burners for hydro-carbons seems to have been entirely overlooked, and yet it is perhaps the only chance left for making their introduction profitable as fuel.

It is the construction of a boiler peculiarly adapted to the flame of the oil, and to the retaining of the intense heat engendered, instead of letting it pass out of the stack, losing at the same time more of the strong air draft essential to a proper combustion.

It is farthest from the aim of the writer to discourage any attempt that has been made to accomplish this very desirable object.

The information before the public has heretofore been of a very general character, and the experiments made have been without substantial result.

Being led by pecuniary interest to investigate the matter, he deemed that the facts presented may be valuable, although they were unfavorable at the time to his wishes. H. E. W.

Oil News.

A new well on the Moffat farm, about two miles from the Rynd farm, towards Reno, owned by the Central Petroleum Company, was struck a few days ago and is giving about eight barrels This well is on the line, and it is believed, marks the belt from Cherrytree run to Reno. It will undoubtedly open up a large extent of territory.—*Record.*

BULLY HILL.—The Prentice, Crawford, Barbour & Co. well on the Ryal farm, which had been producing thirty-five barrels daily, was torpedoed on last Friday, and is now doing 140 barrels. Three new wells are going down on this farm. There are seven producing wells on Bully Hill, giving a total daily production of 250 barrels. Prentice, Crawford, Barbour & Co. have laid a pipe from their wells to Foster Station, across the river.—*Spectator.*

—A well was struck on the Travers' track, near Foxburg, adjoining the Nolan farm, last Saturday. Doing 35. Owned by M. C. Martin and G. R. Harnes.

—Several wells are being put down to test the territory in Knox township. One on the land of Ellison & Co., and others whose names we have not learned.

—The well on Kable's land, near old Clinton Furnace was put down to the third sand and a good show obtained. The owners, very singularly, are not making any effort to test it.—*Derrick.*

NEW ADVERTISING DIRECTORY.—Messrs. R. Muckleston and J. S. Williams, general agents for the State of Pennsylvania, are now in this city soliciting cards from our leading merchants for G. W. Hawes' patent Pictorial Business Advertiser. This is a handsomely gotten up work, and is to be placed in the reading rooms of five of our leading hotels. It has been successfully introduced into fourteen different States, and deserves a liberal patronage.

TRUNKS and bags of every variety, at Kron's, Spring street.

For the Herald.

THE DEAD.

(From the German of Klopstock.)

How softly lies the clay
Of the sacred dead;
Wearing each year away
In its silent bed.
Slowly to death I draw nigh,
Day after day;
Until in the grave I'll lie,
And moulder away.

Here are hushed all sighs;
They weep no more;
Who enter where joy dies,
Their sorrows o'er.
And by the cypress tree
That o'er them weep,
They'll remain till the angel pleases
To wake their sleep.

JOHN A. LANIGAN.

From Petrolia, Ontario.

PETROLIA, Oct. 30, 1871.

Editors Morning Herald:

Oil matters here about the same as when I last wrote. There have been several new strikes, amongst which I will name on the west of the railroad Mr. Clement, No. 2, 50 barrels; Mr. T. Bennett, 30 barrels, besides one on the Shoemaker Territory. On the east of the railroad we have the Mackenzie & Craise No. 2, 40 barrels; the Monterief not tested, and one struck by Mr. H. Prince, between 40 and 50 barrels. Besides these both sides have had several small wells averaging from 10 to 20 barrels per day.

One large export still is not yet in working condition Englehart & Co. are exporting about 1,500 barrels refined; the Carbon Oil Company about 750 barrels per week, besides other firms, making a total of about 3,000 barrels on an average per week. The production of crude is about 10,000 barrels per week, and would be greater, but the scarcity of water compels many to shut down their wells.

The crude producers are governed by an association of themselves, and the ruling price for crude just now is for export $1.50 per barrel; for home consumption $2 50. This has been the means of placing a very superior oil on the market, as the exporter only takes some 55 per cent out of the crude and runs the debris over for home use oil, thus making it impossible for the manufacturer for our home market to compete.

The refiners seeing this have determined to form an association of their own which is to be backed up by the Crude Association which will place the price of refined oil for the home market, making it equivalent to the price paid for crude.

Mr. Williams, of Hamilton, lately of the Carbon Oil Company, is building a refinery here.

For the last three weeks we have been in daily fear of fire, but no casualty of any moment has occurred. Sunday last all the village were on the alert to prevent its getting in amongst the wells.

Business in all its branches is good and developing, still going on with vigor some thirty new wells being in various stages of progress.

We ship daily some twenty-five car loads of oil from here, mostly crude. Refined worth some 23 cents per gallon.

M. P.

THE WORKS OF J. W. INNIS & CO., OIL CITY.—We yesterday visited the now celebrated sucker rod factory and machine shop of W. J. Innis & Co., of Oil City. It may be considered one of the most extensive and important branches of industry in the region, having been originally started from a very small beginning. The works are situated at the head of east Seneca street, extending from that street to Oil creek. The main building is 100 feet deep by forty feet wide, and two stories high. The front is divided off into an office and capacious and well filled store room, containing all the machinery requisite for drilling or pumping oil wells, such as drilling tools, cables, casing, tubing, pumps, jars, fishing tools, gas fittings, blowers, and in fact all the new and most approved apparatus for developing territory with the least possible expenditure of money. We noticed among other valuable machinery, their new patent casing head, which is extremely simple in construction, and admirably adapted to the purposes intended. This article, although superior both in pattern and material to others, sells for $2 less than any other casing head in the market. We were also shown their square shaft rig irons, which are considered much more convenient and less liable to get out of order than the round pattern. The difference between the two consists simply in the round one being fastened with a key which is liable to become loose, and the square one requiring no key, will always remain firmly in position. There are also on hand a large number of Arnold's patent tubing stays, which are a very simple contrivance for steadying and preventing the vibration of tubing in wells while being pumped. Adjoining these two rooms to the rear is the machine shop, with a large number of skilful workmen, who have the reputation of turning out some of the finest work in Western Pennsylvania. Here every description of tools and machinery are manufactured, and the sucker rod irons are fitted up. The extreme rear part of the floor comprises the boiler and engine room, also a grinding room, where the sucker rods are ground on emery wheels. The entire second flat or above is devoted to sucker rods, which are here manufactured from the best material at the rate of 5,000 feet per day, which hardly keeps pace with the constantly increasing demand. To the south of the main building is the blacksmith shop, sixty feet deep by twenty-five feet wide, which contains three fires and a six hundred pound steam hammer. The pressure of work in this department has of late been so great that two more fires are to be immediately added. To the north of the main building is the iron foundry, the dimensions of which have recently been largely increased. The foreman of this department is an old and skillful molder, and is considered one of the best hands in the country. The work turned out here is of the very best quality and embraces every variety of casting used in their business. The works of W. J. Innis & Co, taken as a whole, are in a most flourishing condition, and reflect the highest credit upon the proprietors for their enterprise and management.

FOREST COUNTY CASE DECIDED.—In the case of Lamb et al. vs. Irwin, the Supreme Court reversed the decision of the Forest County Court. Suit in ejectment was brought by Hon. R. Irwin against Lamb, Mays, Hall and others for a large tract of land in Forest county, on which the latter parties had erected saw mills and were carrying on the lumbering business, and to which Judge Irwin had a tax-title claim. The Court decided against Lamb et al, and they went to the Supreme Court where the decision of the Court below was reversed. W. D. Brown, Esq., of Warren, for Lamb et al, and F. D. Kinnear, Esq, of Franklin, for Irwin.—*Spectator.*

PETROLEUM PAINT OIL.—We learn that a number of gentlemen are investigating the merits of this article, with a view to establish works and engage in its manufacture on a large scale in Titusville.

SMALL POX AND VICCINATION.—In Pittsburgh the number of small pox patients sent to the hospital last month was forty-two; placards are put upon the houses, and the streets barricaded where this disease prevails. The Board of Health have given notice that non-residents having small-pox would be subject to a fine of $500 by coming to that city, and an order issued that on no account should a person afflicted with this disorder be permitted to come into the city. The November number of *Harper's Magazine* gives the details of an improved mode of vaccination, which, in view of the ravages of small pox in Pittsburgh and adjoining municipalities, may perhaps deserve the attention of our medical practitioners The new plan was first practiced by a Mr. Ellis, an English physician. Ordinary vaccination is performed by scraping off the epidermis and thrusting the vaccine virus into a puncture made by the lancet. A greatly improved method, however, consists in raising a small blister by a drop of cantharides applied to the skin. This is to be pricked and the drop of fluid let out, and a fine vaccine point put in this place, and withdrawn after a moment of delay; the epidermis falls back and quite excludes the air, shutting out any germs that may be floating in the atmosphere. This method has been practiced by Mr. Ellis for twenty years; and out of hundreds of cases of vaccination which he has performed, he has never had an instance of blood-poisoning or abcess, while by the ordinary method an occurrence of secondary abcess is by no means uncommon, and that of pyæmia is often observed. The comparative safety of this method is believed to be due, first, to the exclusion of the air; and second, to the lesser size of the aperture for the introduction of mischief than when the punctures are made by the lancet.

The Alps Insurance Company.

At a meeting of the stockholders of this company, held at Erie on the 16th inst., it was resolved to raise all the money needed to pay the losses in the great Chicago fire promptly, without using stock or surplus; and an agreement to that effect was signed by a large majority of the stockholders. An adjuster has already gone to Chicago to adjust and pay losses.

O. NOBLE, President.

M. RUSH WARNER, Secretary.

This is welcome intelligence here, where the Alps is well represented and has a good many policies in force tf

Insurance Notice.

The Insurance Situation—List of Solvent Companies.

The Chicago fire has, at last advices, proved more disastrous to the companies represented there than at first reported. The result of which is that many of the older companies have been obliged to retire from business until a full and detailed report may be had of their liabilities, and in consideration of these facts I have at a great expense and labor secured a few more companies not represented in Chicago, and who lose nothing by the fire, and by this means I am enabled to offer to my patrons and the public reliable and safe insurance at adequate rates. The companies now represented, whose capital and assets remain firm and unimpaired are:

Imperial, of London, gold	$3,000,000
Home, of Columbus, Ohio	650,000
Union, of Bangor, Maine	455,500
Eastern, " "	350,000
People's, of Pennsylvania	300,000
Williamsport, of Williamsport, Pa	150,000

oct26-tf J. T. MCANINCH, Agt.

Card.

The General Insurance Agency of F. Bates & Co, established in 1863, still lives, notwithstanding the great fires in the oil region in 1865, the Portland fire in 1866, and the Chicago fire in 1871.

We do not advertise "Solvent Companies" that didn't have sufficient respectability to be known in Chicago, and of course *had no losses there.* Nor do we say "unembarrassed," for "we think we are hit." But if our customers, or any parties will bring us their insurance policies we will tell them what is good and what is not, and will try to protect them in the future as well as we have during the eight years past.

F. BATES & CO,
oct21-10t Ins. Agents.

DIED.

McMULLEN—At the Burdick House, on the 2d inst., John McMullen, of Ayrshire, Scotland. Funeral services at the Burdick House, on Franklin street, this morning at 9 o'clock.

side. They offered $200 for her. She was then about six or seven years old and entirely untrained, having never been in harness but twelve hours, half of which time, as Mr. Decker then stated, he ploughed with her, hauling stone with her the other half. She was there and then sold to Messrs Decker and Bingham for $260 The next day they went with the mare through Orange county toward Goshen, and while at Hampton, near Goshen, sold her to William Tompkins, better known as "Jersey Bill," for $360. She was at this time wary and fretful. Mr. Tompkins soon di-posed of her for $600. He owned her about six months. Alden Goldsmith was the purchaser. Previous to her purchase by Mr. Goldsmith she had had but comparatively little handling, and her great speed is entirely due to the training while in his hands.

The Maid and Lucy, the great hippodrome mares, are to trot in Philadelphia, over the Suffolk Park course, on Thursday, November 9. Mr. B. N. Smith, the owner of the Maid, recently wrote to Budd Doble, her driver, to take the mare home, and said that he must not go to California It is rumored that he did not dare have the mare put against General Sanford's green horse an up-an-up match on their merits over the Sacramento trotting course.

JUST OUT!

THE NEW Wheeler & Wilson SEWING MACHINE.

THE WHEELER & WILSON Sewing Machine Company, having had eighteen years experience in manufacturing and selling Sewing Machines and employing the ablest mechanical talent in this country and in Europe now offer to the public

THE NEW MACHINE,

confident that it possesses all the advantages which experience has shown to be essential to a Perfected Sewing Machine.

The principle is the same as in the old Wheeler & Wilson Machine, but changes have been made which increase its efficiency, while at the same time cost and liability to derangement are lessened. Seams are sewed with ease. The work guided with scarcely an effort. Nearly double its former power. No under-tension to manage. Every joint can be tightened as fast as it wears.

We recommend our customers in the country to purchase their machines direct from our Agents, as the price is the same as at our offices, in that case they can be secure, at their own homes, the necessary instructions. Agents wanted

THE EVANS

PHOTOGRAPHIC GALLERY,

(LATE OF BUFFALO)

Kingsland Block, Franklin Street,

TITUSVILLE, PA.

Mr. and Mrs. O. S. EVANS

Respectfully announce to the public that their GALLERY IS NOW OPEN, and solicit the patronage of those desiring

Artistic Pictures,

But to those wishing white, lifeless pictures, the establishment offers no inducements, which are in direct violation of the rules and principles of art, and shock the taste of every cultivated mind.

The Beautiful IVORY-TYPE is Mrs. Evans' Great Specialty.

And for the first time introduced into the oil country. The Ivory-Types and Exquisite Porcelain Pictures cannot fail to satisfy the most fastidious taste.

Persons heretofore having unsatisfactory pictures are particularly invited.

Particular attention paid to the

Photographing of Children.

Mrs. EVANS will be happy to suggest anything she may think proper in dress, position or picture

Rooms Open from 7 a. m. to 9 p. m.

(COMPLIMENTARY.)

BUFFALO, January 28, 1871

Understanding that Mrs O. S. Evans, of this city, is about to take up her professional residence in Auburn for a time, I take great pleasure in stating that I have known Mrs. Evans for some years as a Daguerreotypist and Photographer who ranks among the first in the world for artistic taste and skill. I sincerely hope that she may be as successful at her new residence as she has been in this city.

MONEY CANNOT BUY IT!

For Sight is Priceless!

THE DIAMOND GLASSES,

MANUFACTURED BY

J. E. SPENCER & CO., N. Y.,

WHICH ARE NOW OFFERED TO

the public, are pronounced by all the celebrated opticians of the world to be the Most Perfect, Natural, Artificial help to the human eye ever known. They are ground under their own supervision from minute Crystal Pebbles, melted together, and derive their name "Diamond," on account of their hardness and brilliancy. For Sore Eyes, Weak Eyes, on which they are constructed brings the core or center of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and waving rings of light, dizziness etc. peculiar to all others in use *They are Mounted in the Finest Manner*, in frames of the best quality, of all materials used for that purpose *Their Finish and Durability* cannot be surpassed

CAUTION—None genuine unless bearing their trade mark stamped on every frame

C. W. MEAD, Jeweler and Optician,

Is the sole agent for Titusville, Pa.,

From whom they can only be obtained. These goods are not supplied to peddlers at any price.

ANOTHER

Valuable Invention

For Oil Wells.

CATES' PATENT

BACK SUCTION PREVENTIVE,

Which entirely prevents the ingress of air into oil wells while the tubing is being drawn.

It is a well-known fact to oil well operators that upon wells where gas pumps are used, it is necessary to preserve as nearly a perfect vacuum as possible, and that no air should be let into the well at any time when it can possibly be avoided, consequently whenever the tubing is drawn from a well, it is the cause of great injury to it, as the stuffing box being then necessarily opened, the air immediately rushes back between the tubing and casing into the well, going into the oil rock and gas veins, and consequently causing the oil and gas to rush back to a great distance. It almost always takes several days after pumping is resumed for a well to be brought back to its former condition, and oftentimes it takes several weeks, and quite frequently wells have been almost completely ruined by the air being thus let in while drawing tubing

The Back Suction Preventive is attached to the stuffing box, and works in such a way that it completely shuts up the space between the stuffing box and tubing so effectually that not a particle of air can get through at any time while the tubing is being drawn and replaced

It supplies a want long felt and is without question one of the most valuable inventions of the day to those engaged in the oil producing business. No well should be without one, as it oftentimes saves ten times its cost by once using.

It is manufactured and for sale at the Foundry and Machine Shop of

ANDREWS & CO.,

Tidioute, Pa

SENECA FALLS, N.Y., Aug. 31, 1871.

To Whom it May Concern;

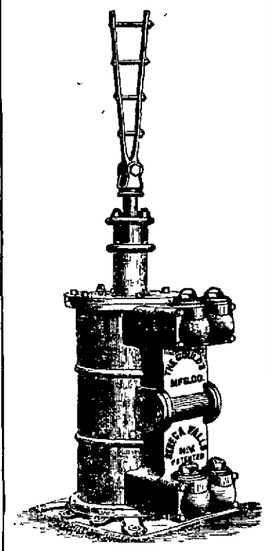
Notice is hereby given that we have the right to make and vend the Gas Pumps heretofore manufactured and sold by us, and we hold ourselves bound and responsible to protect all our vendees in the use of the same

sept2-tf COWING & CO.

NOTICE.

Patented Aug. 8, '71

BY



Size of Cylinder ..... 13 by 24
Size of Valves ..... 3 inches
Weight of Pump ..... 550 lbs

This Pump is not equalled for durability, simplicity and workmanship, and creates a greater vacuum with 30 to 40 per cent. less power than any now in use. This Pump has Steel Spring Rings constructed so as to create a very slight friction, and are self-packing. The valves and ports are large, to admit of a free suction and discharge of the gas. The valve seats are protected by a leather gasket on the valve to obviate any wear to the valve seat or valve.

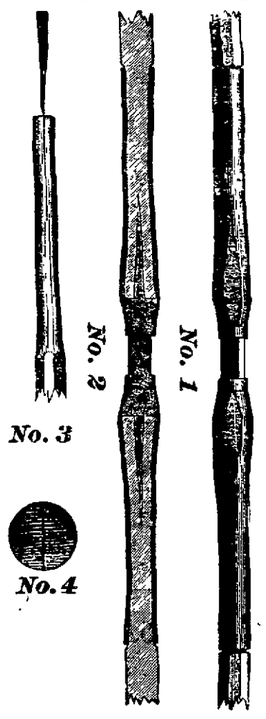
MACHINISTS AND MANUFACTURERS OF THE

INNIS SUCKER ROD



SUCKER-ROD JOINTS.

Explanation of Cuts.

No. 1--Represents the Joint Complete. No. 2--A longitudinal sectional view of a full Joint, showing the position of the wood in the socket when wedged, a glance at which must convince the most skeptical of the superiority of this Joint over any other. No. 3--A view of the end of the Rod, when turned ready for the socket to be driven on, with the slot for the wedge and the wedge about being entered. No. 4--Represents the end of the wood, and shows the proper way to saw the slot (across the grain) into which the wedge is to be driven.

The above description and accompanying cuts will enable any skilled person to make connection at the wells in a much shorter time than can be done with any other Rod, all the tools required being a small fine saw, one of our hollow augers and a few of our wedges. The wedges can be procured at any hardware store gratis.

H. H. Locke having secured the exclusive right to manufacture the Locke Adjuster, parties can obtain the same by by addressing

J. LOCKE & SON, Titusville, Pa.

I hereby certify that I have obtained injunctions against the Locke, Dickey and Shearer adjusters, as infringements on my patent, and that I now am sole owner of the same, and that I have this day licensed H. H. Locke to manufacture and sell the Locke and Dickey Adjusters.

DE. D. ELY.

Titusville, Sept. 11, 1871. sep15-t
